

Versé

Efficient. Economical. Easy.

Versé Panels are the perfect choice when space and budget are limited, offering a sensible way to divide existing space, create privacy, and achieve aesthetic appeal.

Overhead Storage Options
Overhead cabinet and shelving can be hung on the panels above work surfaces. Strong steel construction, easy to assemble.

Sturdy, sound absorbing, and adaptable.

Versé Panels are ideal for creating call centers, receptionist stations, storage areas, walls, department divisions, study cubicles, and more.

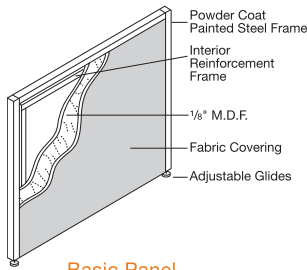

The details count.

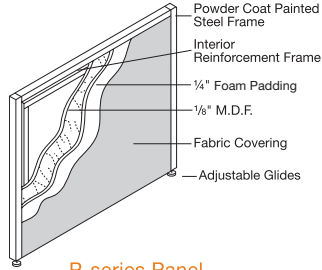

Custom-Made Panels

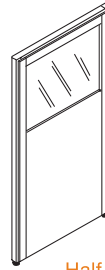

Panels are available in many colors and fabrics. Choose from five panel heights: 42", 48", 60", 66", and 72"; and seven panel widths: 24-1/2", 30-1/2", 36-1/2", 42-1/2", 48-1/2", 60-1/2", and 72-1/2".

Basic Panel

P-series Panel

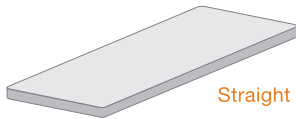

Half-Acrylic Basic Panel

Choose from Three Panel Styles

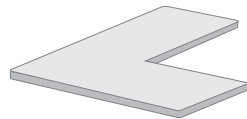

Basic Panel: Full-fabric panel without padding for a more crisp, hard surface look.

P-Series Panel: Full-fabric panel with padding between the panel and fabric for a softer look and semi-tackable surface.

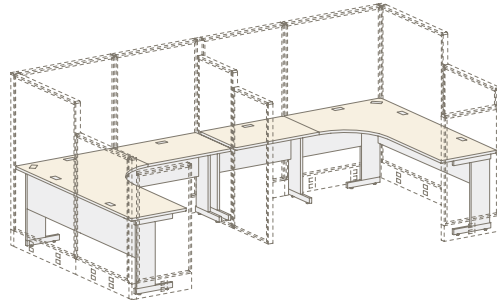

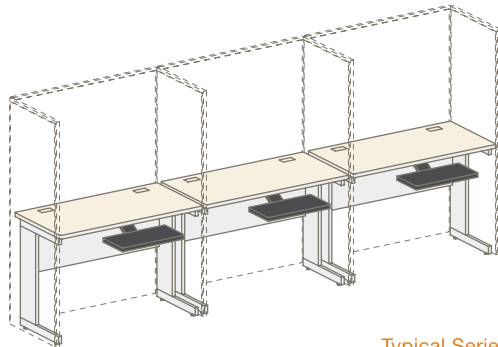

Half-Acrylic Basic Panel: Fabric panel with top section made of tinted acrylic that's ideal for adding light and creating a more spacious feel.

Straight Countertop

Corner Countertop

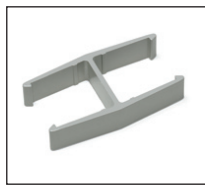

Typical Series 1000 Layouts

Counter Tops, Freestanding Desks, and Workstations

Select from Verse's rectangular or L-shaped cantilevered countertops to create highly functional work surface configurations (ideal for receptionist stations). The countertops feature 12" deep, high-pressure laminate with impact-resistant T-mold edging.

Add MAXON Series 1000® freestanding desks and worktables to create a finishing touch to your office spaces, call centers, storage and work rooms.

180° Connectors for straight panel connections.

90° Connectors for L-corner, three-way and four-way panel connection.

T-Base Stabilizing Foot allows for freestanding panels.

Wall Bracket to connect panels directly to walls.

Fast and Easy Setup and Install

Installation is a snap! Versé panels are easy to assemble and move without tools. To connect panels, just snap on a QuickConnect connector at the top and the bottom of the side-edge of one panel and slide a second panel into the two connectors. It's that easy!
